

## **The Pet Care Foundation Sponsors BASIC BLACK**

With its mission to help save animals in the LA City Animal Shelters, the Pet Care Foundation is sponsoring a program called Basic Black in all 6 LA City Shelters September 21<sup>st</sup> and 22<sup>nd</sup>. The program will call attention to the thousands of black cats and dogs in the shelters that are over-looked and not adopted due to superstition, prejudice and/or simply that some black animals are difficult to see in the often dimly lit shelters.

A \$50 discount on the adoption fees is offered that weekend to promote the adoption of these primarily black animals. "Drawing attention to these beautiful animals is a great effort on the part of The Pet Care Foundation. LA Animal Services is grateful to have their support with these adoption events, their TV show, and their grooming programming. All are bringing us closer and closer to our no-kill goal," said Brenda Barnett, GM for LAAS.

You can find out where all of the shelters are located and see all of the animals available for adoption at:

[www.laanimalservices.com](http://www.laanimalservices.com)

Over 5,000,000 homeless pets are killed nationally each year simply due to a lack of homes for them and careless owners who do not spay/neuter their animals. 250,000 of those euthanized are in the State of California. Please help by adopting, and by making

sure your pet is spayed or neutered.
